## *Currently Arranged Musical Selections*

*When purchasing a musical selection, the publisher's licensing will be pursued and the fee will be added to the price of the selection. In most cases the licensing fee runs from \$172 to \$300 depending on the publisher. My fee for the arrangement is generally \$125.*

*In today's music world, it is extremely important that licensing be obtained or face the possibility of legal action by the various publishing companies owning the rights to each song.*

*If you would like to pursue the licensing for a particular song on your own you can use BMI or ASCAP to help your research. I will be happy to provide the arrangement after I receive verification of the licensing.*

*As part of my service, I am happy to obtain the publisher's licensing for you.*

*If you would like me to create a new arrangement, my fee usually begins at \$325 and includes all instrument parts (2 trumpets, alto and tenor sax, trombone, synth, piano, guitar, bass, and percussion) and a rehearsal track.*

**Below is a list of Currently Approved Selections  
I have on file.**
